Panel 1:

Holistic regeneration & transformation of environments, cities & regions

"If I had to select one sentence to describe the state of the world, I would say we are in a world in which global challenges are more and more integrated, and the responses are more and more fragmented, and if this is not reversed, it's a recipe for disaster."

Antonio Guterres Davos 2019
UN Sec General

Panel 1: Holistic regeneration & transformation of environments, cities & regions

GVR
DISTILLED

Cascading Risks can be catastrophic and assessment needs holistic systems modelling

Panel 1:

Holistic regeneration & transformation of environments, cities & regions

*"We are drowning in
data but starved of
wisdom"*

Yuval Noah Harari.
